PLANTING TABLE FOR MARCH
GARDENS: Plant asparagus, rhubarb, horseradish, and artichoke, cabbage plants, onion sets, Bermuda onion plants, English peas, Irish potatoes, beets, carrots, collards, mustard, parsnip, parsley, radish, spinach, turnip, kale, rape, lettuce, tendergreen, cauliflower, endive, broccoli and Swiss chard in the open. Transplant to the open all vegetable plants now in cold frames. Keep tomatoes, eggplant and pepper plants under glass, lifting the sash off these during mild days, so they may be hardened off.

They are based on a 35° latitude and a longitude of 75° Eastern Time Zone, 90° Central, 105° Mountain and 120° Pacific. Your local times for Sun r., Sun s., etc. can be figured approx. by adding 4 minutes for each degree you are west or subtracting 4 minutes for each degree you are east of the above degrees.
