PLANTING TABLE FOR MAY

GARDENS: This is the big month for outdoor planting of all kinds. You may plant the entire list of garden seeds of both hardy and tender varieties, and make a second planting of snap beans, corn, and if not already planted in sufficient quantities, continue to plant lettuce, mustard, beets, spinach, radish, turnips, kale, cabbage plants, onion sets, cauliflower, celery, carrots, parsley, squash, cucumber, tomato plants, peppers, eggplants, watermelons, cantaloupes, butter beans, pole beans, okra and anything that you like in vegetables.

The times shown in this calendar are daylight saving time from the second Sunday in March until the first Sunday in November. They are based on a 35° latitude and a longitude of 75° Eastern Time Zone, 90° Central, 105° Mountain and 120° Pacific. Your local times for Sun r., Sun s., etc. can be figured approx. by adding 4 minutes for each degree you are west or subtracting 4 minutes for each degree you are east of the above degrees. Also add 2.9 minutes for each degree you are north or subtract 2.9 minutes for each degree you are south. Moon's phases and seasons calculated at 7:00 AM EST.
